

I believe it is more critical than ever that radio and tv stations provide programming that promotes family values as well as respect and caring for other people . There is just too much of the opposite on stations today-often portrayed in a profane and frankly embarrassing manner. K-Love provides the former for our community and many others across the country. Thus I believe it is in the public interest for it to remain on the air. Please do not let it be displaced by an LPFM type broadcaster.

Thank you for listening
